

[Start Your Own Clean Up the Hotlines Internet Campaign](#)

How to Start

1. Please WRITE to me, let me know of your campaign state or area or numbers you are working on, send me a copy of your charts as you go along, and... how it is going – so I can remove the number from the list at the end ☺.
2. Go to the [BAD NUMBER LIST](#). Pick **one number at a time** to eradicate from the internet.
 - a. Please pick the more obvious out-of-service numbers
 - i. Some numbers I have removed are in a gray area and I just don't want to list them on my site for suicidal callers. Let's save those for later ☺
3. COPY AND PASTE into a Google Search. Typing could create typos !
 - a. This will show you how many sites **still list the number**.
 - b. Now you will need to dig in and fill out your form – maybe as you go along.
 - c. Contact Forms – You must keep a record of these also. You can put the info in the chart.
4. Please always be kind, understanding, and courteous !!! No matter how many emails or letters it takes. Please don't send them too often, maybe once a month or every few months – whatever you have time for ☺.
 - a. We might never know what has happened to some of these webmasters. Just like with the hotlines – no one has been able to keep it up. People start sites they sometimes can't finish – life happens, loved ones die – grief takes over, people run out of money and time to give, people get depressed, people get sick, people die. If you have one who never responds, let me know. Maybe we can find another way ☺
5. Try to use the following Sample Email:

Sample Email:

(Please send your email with the links as I have included below)

Subject Line: 000-000-0000* Out of Service

(*copy and insert the bad number)
